🎓 17+ Years Experience | 📖 40+ Publications | 🏆 7 SCIE and ESCI Papers Indexed | 📊 40+ Scopus

👤 PROFESSIONAL SUMMARY

Computer Scientist with a Ph.D. and 17+ years of academic, research, and administrative experience in Computer Science & Engineering. Expertise in **Artificial Intelligence, Computer Vision, Deep Learning, Federated Learning, and IoT-enabled systems**. Developed advanced hybrid models integrating **Vision Transformers, CNNs, GoogLeNet, and GANs** for applications in **smart agriculture and healthcare**. Demonstrated contributions in **SCI/Scopus publications, research supervision, funded projects, and academic leadership**.

Authored **40+ research publications**, including papers in **SCIE-indexed journals**, Scopus-indexed journals, book chapters, and international conference proceedings published by reputed venues such as Springer and JoVE. Demonstrates strong academic leadership through roles in **NBA coordination, NAAC support, ISO audit processes, departmental administration, conference organization, and student research mentoring**. Brings a mature university-ready profile combining research productivity, institutional service, and the capacity to build funded interdisciplinary research programmes.

🔬 RESEARCH IMPACT AND FUNDING POTENTIAL

- Developed original research frameworks including **PLANTDetectNet, PlantVitGNet, and Apple-ViT** for AI-enabled crop disease diagnosis and intelligent agricultural systems.
- Published in **SCIE-indexed journals** and Springer proceedings with interdisciplinary relevance spanning agriculture, computer vision, multimedia security, and intelligent healthcare.
- Active research directions align with national and international funding priorities in:
 - Artificial Intelligence for Smart Agriculture
 - Computer Vision and Explainable Deep Learning
 - Federated Learning and Privacy-Preserving AI
 - Edge AI and IoT-enabled Decision Systems
- Strong potential to contribute to funded projects under **DST, SERB, AICTE, ICAR, MeitY**, and related international collaborative programmes.

🏛️ EDUCATION

Postdoctoral Research Fellow

May 2026 – Jul 2027

National Kaohsiung University of Science and Technology (NKUST), Taiwan

Laboratory: Medical Physics and Informatics Laboratory
Supervisor: Prof. Tsair-Fwu Lee
Research Topic: Reliable and Explainable deep learning framework for Diabetic Retinopathy Grading
Key Responsibilities: Designing deep learning-based image classification pipelines and preparing SCI-indexed manuscripts

Ph.D. in Computer Science & Engineering

Awarded: 2026

Madhav Institute of Technology & Science, Deemed University Gwalior

Dissertation: Plant Disease Identification using Deep Learning Approaches
Supervisor: Prof. Rakesh Singh Jadon
Key Contributions: Proposed PLANTDetectNet, PlantVitGNet, Hybrid EFF-ViT Noisy and Apple-ViT for secure, robust, and deployable crop disease identification using hybrid deep learning models.
Core Areas: Vision Transformers, Deep Learning, Federated Learning, GAN-based Architectures, IoT-integrated Smart Agriculture

M.Tech. in Computer Science & Engineering

2011

Institute of Engineering Technology, Bhagwant University, Ajmer

CGPA: 7.6/10

B.E. in Computer Science & Engineering

2006

Madhav Institute of Technology & Science, Gwalior

RGPV Bhopal | 67.75%

RESEARCH INTERESTS

Artificial Intelligence

Deep Learning

Computer Vision

Vision Transformers

Federated Learning

Smart Agriculture

IoT-enabled Systems

GANs

Explainable AI

ACADEMIC APPOINTMENTS

Assistant Professor, Department of Computer Science & Engineering

Aug 2019 – Present

Ajay Kumar Garg Engineering College (AKGEC), Ghaziabad

AKTU Affiliated

- Serving in teaching, research, accreditation, and academic administration roles in a leading engineering institution.
- **NBA Coordinator:** Led outcome-based education documentation and departmental accreditation processes.
- **NAAC Team Member:** Contributed to institutional quality assurance, compliance, and documentation.
- Served as **ISO Internal Audit In-Charge** for the department.
- Supervised **20+ B.Tech. capstone projects** in deep learning, computer vision, NLP, and IoT.

Assistant Professor and Head of Department, CSE

Nov 2018 – Jul 2019

Gwalior Engineering College, Gwalior

RGPV Affiliated

- Headed the department and managed curriculum planning, academic delivery, faculty coordination, and student progression.
- Served concurrently as **Examination Superintendent**.

Assistant Professor and Head of Department, CSE

Jul 2016 – Nov 2018

MITRC, Alwar, Rajasthan

RTU Affiliated

- Led the department with responsibility for curriculum execution, faculty mentoring, and laboratory development.
- Coordinated academic events and research activities at departmental level.
- Served as **Coordinator**, International Conference ETSEM-2018.
- Served as **Co-Convener**, National Conference ACCEE-2017.

Assistant Professor and Head of Department, CSE & IT

Jul 2011 – Jul 2016

Gwalior Institute of Information Technology (GIIT), Gwalior

RGPV Affiliated

- Managed dual departments with responsibilities including academic planning, examination administration, budgeting, and laboratory infrastructure.
- Served as **Organising Secretary**, International Conference IRESM-2016.

Assistant Professor, Department of Computer Science & Engineering

Jul 2006 – Jul 2009

Gwalior Engineering College, Gwalior

RGPV Affiliated

- Contributed to academic delivery, timetable planning, laboratory coordination, and examination logistics.

DOCTORAL RESEARCH CONTRIBUTIONS

- **PLANTDetectNet**: Proposed a hybrid IoT and deep learning framework for secure, real-time plant disease detection and classification using edge-aware intelligent processing.
- **PlantVitGNet**: Designed a novel hybrid fusion of Vision Transformer and GoogLeNet for improved plant disease identification, combining local and global feature representation.
- **Noisy Hybrid EffViT**: Developed a hybrid EfficientNet–ViT model with ASCE loss for noise-robust plant disease detection. Achieved improved accuracy and generalization under real-world noisy conditions.
- **AppleViT**: Developed an AI-driven software framework for automated apple leaf disease recognition with practical deployment relevance for precision agriculture.
- Extended methodological expertise to **deepfake detection** using hybrid CNN and GAN frameworks for robust multimedia forensics.
- Current forward-looking research includes **federated learning for privacy-preserving agricultural AI**, **edge-deployable transformer architectures**, and **multi-sensor intelligent disease monitoring systems**.

RESEARCH PROJECTS AND GUIDED WORK

- Research direction under development on **federated learning for smart crop disease detection** with potential application to distributed agricultural monitoring systems.
- Guided student research and applied projects in:
 - Breast cancer and mammogram analysis
 - Brain tumour detection
 - Hate speech and fake news detection
 - Deepfake detection
 - Depression detection from social media
 - Crop disease diagnosis using machine learning and deep learning
- Built a research culture resulting in **22 Scopus-indexed student-led publications**.

ACADEMIC LEADERSHIP AND ACCREDITATION

- › **Head of Department** at three institutions across academic administration, curriculum planning, faculty mentoring, and departmental development.
- › **NBA Coordinator** for outcome-based education documentation and accreditation support.
- › **NAAC Accreditation Contributor** for institutional quality assurance and compliance activities.
- › **ISO Internal Audit In-Charge** for departmental academic process standardization.
- › **Examination Superintendent** and academic administration roles in multiple institutions.

CONFERENCE ORGANISATION AND SERVICE

- › **Organising Secretary**, Ajay Kumar Garg Engineering College, successfully organized the **1st IEEE International Conference on Advanced Computing and Emerging Technologies (ACET-2024)**, promoting research and innovation in computing domains.
- › **Organising Secretary**, Ajay Kumar Garg Engineering College, organized the **2nd IEEE International Conference on Advanced Computing and Emerging Technologies (ACET-2025)**, focusing on emerging trends in advanced computing.
- › **Coordinator**, International Conference on Emerging Trends in Science, Engineering & Management (ETSEM-2018), MITRC Alwar, 2018.
- › **Co-Convener**, 3rd National Conference on Advances in Communication, Computer & Electrical Engineering (ACCCEE-2017), MITRC Alwar, 2017.
- › **Organising Secretary**, International Conference on Innovative Research on Engineering Science & Management (IRESM-2016), GIIT Gwalior, 2016.
- › **Organising Committee Member**, FDP on Advancement of AI in Cyber Security, AKGEC Ghaziabad, 2023.
- › Contributed to workshops and faculty development activities in robotics, ethical hacking, Cisco technology, Microsoft outreach programmes, and Wipro Mission-10X initiatives.

TEACHING PORTFOLIO

Representative undergraduate courses taught across institutions:

Machine Learning

Theory of Automata & Formal Languages

Compiler Design

Human-Computer Interaction

Project Management

Entrepreneurship

STUDENT MENTORSHIP AND SUPERVISION

- › Supervised and co-supervised **20+ B.Tech. capstone projects** in AI, deep learning, NLP, computer vision, and IoT-based applications.
- › Mentored student research leading to **22 Scopus-indexed publications** between 2023 and 2026.
- › Guided projects in healthcare AI, social media analytics, multimedia forensics, recommendation systems, and agricultural intelligence.
- › Supported students in publishing and presenting work at national and international conferences.

🌟 PROFESSIONAL DEVELOPMENT AND TRAINING

- **AICTE ATAL FDP on Artificial Intelligence (AI) Leading to Academic Excellence: Transforming Academic Writing & Research**
Organization: Oriental College of Management, Bhopal
Duration: 12–17 January 2026.
- **AICTE ATAL FDP on Bridging Theory to Practice: High Performance Computing, Artificial Intelligence, and Data-Driven Solutions**
Organization: BML Munjal University
Duration: 06–11 October 2025.
- **AICTE ATAL FDP on Cyber Security & Applications**
Organization: Vellore Institute of Technology, Andhra Pradesh
Duration: 01–06 September 2025.
- **AICTE ATAL FDP on Quantum Computing with Artificial Intelligence: Convergence and Applications**
Organization: Gayatri Vidya Parishad College for Degree and PG Courses
Duration: 25–30 August 2025.
- **AICTE ATAL FDP on Smart Healthcare Systems: Enhancing Patient Care with IoT and AI**
Organization: Amity School of Engineering & Technology, Amity University
Duration: 02–07 December 2024.
- **FDP on Entrepreneurship, Incubation, and Innovation**
Organization: Department of Biotechnology, Bansal Institute of Engineering and Technology, Lucknow
Duration: 5–10 August 2024.
- **FDP on Smart Healthcare Systems: Enhancing Patient Care with IoT and AI (ATAL)**
Organization: Amity School of Engineering & Technology, Amity University
Duration: 2–7 December 2024.
- **FDP on Next Generation Technology of Information and Communication**
Organization: Bengal College of Information & Technology
Duration: 5–9 November 2024.

⚙️ TECHNICAL PROFICIENCIES

Programming Languages	Python, MATLAB, C, C++, Java
Frameworks and Libraries	TensorFlow, PyTorch, Keras, Scikit-learn
Research and Authoring Tools	LaTeX, Overleaf, Jupyter Notebook, Google Colab
Domains of Expertise	Deep Learning, Computer Vision, NLP, IoT, Federated Learning, GANs, Transformers
